WSP USA FIELD SERVICES DISASTER AWARENESS REPORT

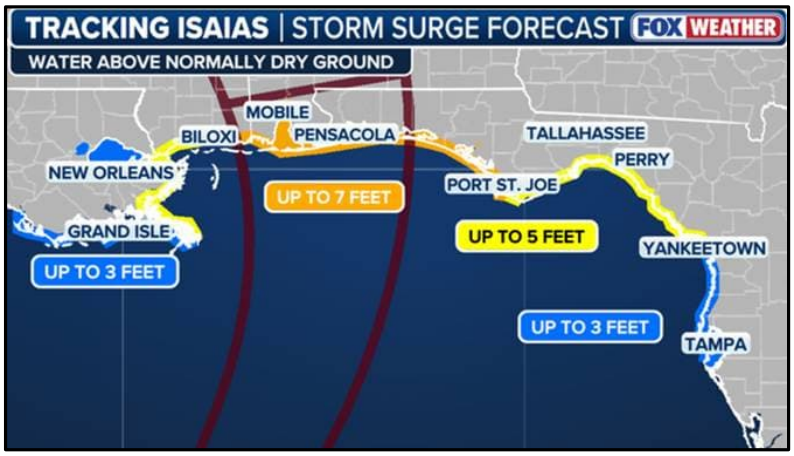

October 8, 2026

Tropical Activity – Atlantic

Tropical Storm Isaias

- Hurricane Isaias is continuing to strengthen in the Gulf after becoming the first Atlantic hurricane of the season and is forecast to make landfall along the northern Gulf Coast later this week as a dangerous Category 2 hurricane.
- Isaias is expected to approach the coast by Friday, with landfall currently estimated to be sometime late Friday or early Saturday between Gulf Shores, Alabama, and Pensacola, Florida.
- Florida Governor Ron DeSantis and Alabama Governor Kay Ivey have declared states of emergency ahead of the storm.
- Meanwhile, evacuation orders have been issued for the entire west end of Dauphin Island in Alabama, as well as Zones A and B in Okaloosa County, Florida.
- Hurricane Isaias strengthened from Tropical Storm Isaias late Wednesday night and is currently a Category 1 storm, with sustained winds of 80 mph and moving east-northeast at 9 mph.
- A Hurricane Warning is in effect from Ocean Springs, Mississippi, to the Bay/Gulf County Line in Florida.
- A Storm Surge Warning is also in effect from the mouth of the Mississippi to Yankeetown, Florida, in the state's Big Bend region.

- Currently, between 5 and 7 feet of surge is forecast for Mobile Bay and from Ocean Springs, Mississippi, to Indian Pass, Florida.
- NOAA's Weather Prediction Center (WPC) has issued a flash flood risk for Friday across portions of Louisiana, Mississippi, Alabama, Florida, Georgia, as well as southern portions of Tennessee, southwestern North Carolina and western South Carolina.
- "Rainfall estimates currently show 6 to 10 inches with localized higher amounts which will lead to flash and urban flooding and eventually river flooding," the FOX Forecast Center said.

WSP USA FIELD SERVICES DISASTER AWARENESS REPORT

October 8, 2026

Tropical Activity – Eastern Pacific

Tropical Storm Rachel

- Located 895 miles W of southern tip of Baja California moving west-northwest near 8 mph.
- Continued gradual weakening is expected over the next few days.

Tropical Storm Simon

- Located 195 miles SSW of Lazaro Cardenas Mexico moving towards the west near 7 mph.
- Simon should turn toward the north Friday night and approach the coast of southwestern Mexico on Saturday.
- Rapid strengthening is forecast, and Simon is expected to become a major hurricane by late Friday or early Saturday.

Disturbance 1

- Area of low pressure is forecast to form south of the coast of Guatemala early next week.
- A tropical depression could form as it moves generally west-northwestward at around 10 mph.
- Formation chance – 48-hour: Low (near 0%); 7-day: Med (50%)

Disaster Declaration Activity

DR-4946 Guam

- Super Typhoon Bavi affected Guam and portions of the western Pacific in July 2026, bringing heavy rainfall, damaging winds, hazardous coastal conditions, and elevated risks to residents, housing, infrastructure, and essential services.
- The eyewall made a direct landfall on Rota, unleashing catastrophic 180 mph winds and major storm surges. Severe impacts, power losses, and structural damage were also recorded across neighboring Guam, Saipan, and Tinian.
- Extreme 180 mph winds caused near-total grid failures on Rota and severe damage to Guam's power infrastructure, knocking out clean water systems, communications, and electricity.
- Super Typhoon Bavi struck on July 6, 2026, just 83 days after Super Typhoon Sinlaku caused $1.5 billion in damage across the region. When Bavi arrived, over 2,500 people across Guam and Saipan were already living in tents or homes with compromised roofs, meaning many properties suffered overlapping, consecutive damage.
- On Oct 7, President Donald Trump approved a Major Disaster Declaration for individual assistance for Guam.

WSP USA FIELD SERVICES DISASTER AWARENESS REPORT

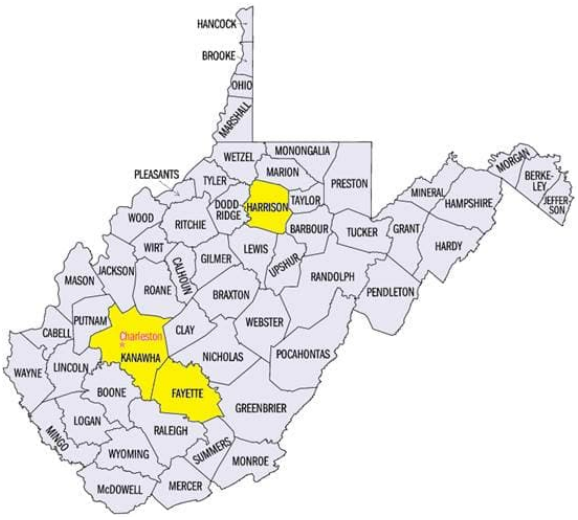

October 8, 2026

Wisconsin

- On July 27, 2026, a powerful line of severe thunderstorms moved across northern and eastern Wisconsin, producing damaging winds, large hail, widespread power outages, and a destructive EF-3 tornado in the Fox Valley.
- The EF-3 tornado traveled roughly 12 miles, remained on the ground for more than 20 minutes and produced estimated winds of 136–165 mph. More than 30,000 homes and businesses lost power.
- FEMA/Wisconsin Emergency Management assessments identified approximately 2,346 affected residential structures, including 84 destroyed and 412 with major damage.
- On Aug 26, Gov. Tony Evers has formally requested a federal disaster declaration from President Donald Trump requesting individual assistance for impacted residents and families in Forest, Outagamie, Vilas, and Winnebago counties.
- On Oct 7, President Donald Trump approved a Major Disaster Declaration for individual assistance for Wisconsin.

West Virginia

- On Sept 13, Governor Patrick Morrisey requested a Major Disaster Declaration from President Donald J. Trump for Fayette, Harrison and Kanawha counties following severe storms and flooding that struck West Virginia from August 14 through August 18.
- Joint preliminary damage assessments identified 624 impacted residences across Fayette, Harrison and Kanawha counties. Of those, 22 homes were destroyed, 60 sustained major damage, 261 sustained minor damage and 281 were otherwise affected.
- Kanawha County sustained the largest concentration of residential damage, with 375 impacted homes, including 17 destroyed and 41 with major damage. Harrison County recorded 179 impacted residences, including 13 with major damage, while Fayette County recorded 70 impacted residences, including five destroyed and six with major damage.
- On Oct 7, President Donald Trump approved a Major Disaster Declaration for individual assistance for West Virginia.
