WSP USA FIELD SERVICES DISASTER AWARENESS REPORT

October 13, 2026

Flash Flood Threat

Central U.S.

- A more than 1,000-mile stretch across parts of the Plains and the Midwest is at risk of severe thunderstorms as moisture from Hurricane Simon.
- In addition to damaging wind gusts, large hail and low-end tornado risk on Tuesday, these tropically enhanced storms will also dump heavy rain across the region for most of the workweek, fueling a flash flood threat that will last at least through Thursday.
- A large dip in the jet stream is bringing Simon's moisture north, enhancing Tuesday's severe weather threat and will fuel a flash flood threat across parts of the Plains and Midwest through much of the workweek.
- A Level 2 out of 5 severe storm risk is in place across the Texas and Oklahoma Panhandles, as well as parts of Kansas and Missouri.
- A Level 2 out of 4 flash flood threat will be active across western Kansas, most of Missouri and western Illinois, including popular cities such as Kansas City, St. Louis, Missouri and Wichita, Kansas.
- On Thursday, the wet weather will shift Northeast into the Upper Midwest and Great Lakes region, where repeated rounds of rainfall are expected.
- Widespread precipitation totals of about 1 to 2 inches are likely, stretching from Northern Texas through parts of the Ohio Valley, covering more than 40 million people.

Aftermath of Isaias

Florida

- Cleanup efforts are underway across the Southeast after Hurricane Isaias slammed into Florida's Gulf Coast as a Category 2 storm.
- Florida Gov. Ron DeSantis confirmed two storm-related deaths in Florida. Two additional people were killed in Alabama after a tree fell onto their home.
- The Florida Panhandle sustained some of the worst damage after Isaias made landfall near Destin late Friday, bringing winds of up to 110 mph.
- DeSantis said Florida plans to seek federal disaster assistance after local officials complete their assessments.
- "We are going to submit a disaster declaration once we get the data from the counties," the governor said.
- Florida currently has 2 shelters open with 21 occupants.
- More than 63k remain without power.
